Enterprise Technologies Offerings

Enterprise Technologies

Infra & Network Security (INS)

- | Secure SD-WAN
- | WAN-Optimization
- | Security Services Edge (SSE)
- | ZTNA, SWG, CASB & DEM

- | Server Load Balancer
- | 4th Generation DLP
- | Link Load Balancer
- | Web Application Firewall
- | SSL Gateway - Zero Trust

- | AD Attack Surface Reduction
- | Tier 0 Attack Path Analysis
- | Attack Pattern Detection
- | AD Threat Detection & Response
- | Active Directory Breach Forensics
- | AD Change Auditing & Rollback
- | AD Backup & Recovery
- | AD Migration & Consolidation

- | AutoTest Results & Data Management
- | Wired & WiFi
- | AirMapper™ Site
- | AirMapper™ Site Surveying & InSites™ Intelligence
- | Dash boards & Workflows
- | Platform for Team Collaboration, Reporting, and Analytics
- | Advanced Asset Management & Network Mapping
- | Vulnerability Scanners: Strengthen Your Edge Network Defenses

Infra & Network Security (INS)

- | Zeek & Suricata – Encrypted Traffic Analysis
- | Inspector & Visibility – Integration with SIEM
- | Open NDR (Network Detection and Response)

- | Next Generation Cloud DNS Firewall
- | DNS Forward Proxy (DFP)
- | AI-Driven advance DNS Protection with LLM models
- | Detect sophisticated DNS tunneling and data exfiltration attempts
- | Ultra Fast DNS – Region-based & Smart secure log retention
- | Empower MSPs with full multi-tenancy capabilities

- | Data Protection and Risk Mitigation (DPRM)
- | Layer 4 Data Payload Protection
- | Crypto-Segmentation
- | Data Security Unified Reporting
- | AD Protection

- | Zero Trust Endpoint Protection
- | Regulate Software allowlisting
- | Application containment – Ringtencing
- | Network & Cloud (M365 tenant) Control
- | Storage Control – USB Drives, backup shares, or network shares

- | Enterprise-grade domain intelligence to prevent, mitigate, and investigate attacks
- | Threat Intelligence & Threat Hunting | Phishing and Fraud Prevention
- | Brand Protection - Lookalike Domain name Protection | Respond to and triage potential incidents with confidence and speed | Empower your homegrown or third-party security applications with the world's best Internet intelligence.

Identity & Access Management (IAM)

- | Identity-First Incident Response | Service Account Protection
- | Ransomware & Lateral Movement | Active Directory Protection
- | Cyber Insurance | Regulatory Compliance | Identity Zero Trust
- | Secure Privileged Access | OT Network Protection

- | Enterprise Single Sign-On (SSO) & MFA | Identity as a Service (IDaaS)
- | Passwordless Authentication | Enterprise Ecosystem Integration - Zero Trust Security
- | Identity Analytics & Threat Intelligence - Social Identity Integration
- | Customer Identity and Access Management (CIAM)

- | Identity Lifecycle Management – Access Management
- | Role-Based Access Control (RBAC) | Compliance and Audit
- | Robust Connector Catalogue | Self-Service – Access Certification Campaign
- | Sail Identity Governance and Administration (IGA) | SOD Analysis

- | Privilege Access Management (PAM) | Third party/Vendor for Remote Access
- | Privilege threat Analytics (PTA) – CyberArk Privilege Cloud
- | Dynamic Privileged Access (DPA) – Identity Security Intelligence (ISI)
- | Endpoint Privilege Management (EPM) – Secrets Management

- | Identity Lifecycle Management – Access Management
- | Role-Based Access Control (RBAC) – Compliance and Audit
- | SSelf-Service – SOD Analysis – Integration Capabilities | Workflow Automation

Data Security (DataSec)

- | Web Application and API Protection (WAAP) | Data Activity Monitoring
- | Data Access Control | Data Risk Analytics
- | Data Discovery & Classification | Cloud-native Data Security Data Security Fabric
- | Compliance Management (GDPR, PCI, DSS, SOX, HIPAA etc)
- | Threat Detection & Prevention

- | PKI (Public Key Infrastructure)
- | Automation CLM (Certificate Life-Cycle Management)
- | Digital Transformation

- | Data Discovery | Structured Data Discovery
- | Unstructured Data Discovery | Data Classifications
- | Data Privacy & Security | Data Compliance and Governance
- | Data Security & Risk Posture

- | File Access Management (FAM) | OnPrem Sharing Files Over Secure Links
- | File System Federation | Security Integrations (AV, DLP, Sandbox etc...)

- | Digital Rights Management | File Encryption
- | Control Access & Prevent Data Leaks | File Audits

- | Intercede secures digital identities. | Manage credentials, ensure mobility.
- | Protect data, networks, facilities. | Trusted by governments, enterprises.

- | Data Masking | Static Data Masking (SDM)
- | Dynamic Data Masking (DDM) | Anonymization & Pseudonymization

Security Operations(SecOps)

- | Continuous Security Validation
- | Autonomous - Internal ,External, Cloud & Kubernetes Pentest
- | AD Password Audit | PCI & NIST2 Compliance | Phishing Impact Testing
- | 1 Rapid Response (Zero Day) & automated Deception with Tripwires

- | Advanced Dark Web monitoring | Integrated Takedown
- | Brand Protection | Supply Chain Intelligence
- | Vulnerability Intelligence

- | Next Gen SIEM
- | Threat Detection Investigation & Response
- | UEBA
- | SOAR
- | Hybrid and Multi Cloud Monitoring
- | Insider Threat Management

- | 4th Human Cyber Training
- | Multilingual Content
- | Custom Connector
- | Regional Cloud Deployment
- | Gamified Learning Experience
- | Vishing, Smishing and QR code
- | CISO Customised Program
- | Managed Service

- | Patch Management
- | Agent Management
- | Integration with VM
- | Single Pane of Glass
- | Automated Patch management system

- | Vulnerability Management
- | Sandboxing, IT/OT security
- | SIEMI- NDR

Cloud Security (CS)

- | Cyber Asset
- | Attack Surface
- | Shadow IT
- | Agentless Integration

- | CNAPP (Cloud-Native Application Protection Platform)
- | Agentless Integration - Multicloud Protection
- | CWPP (Cloud Workload Protection Platform)
- | Secure access to cloud environments

- | SSPM(SaaS Security Posture Management)
- | 3rd Party applications
- | Identity Entitlement
- | Mis-configuration

Application Security & Development, Security, and Operations

- | WAF | DDoS Protection
- | Runtime Protection Securing workloads

- | API Discovery | API Security
- | API Abuse Prevention Credential Stuffing Detection

- | Dynamic Application Security Testing (DAST/IAST) | Black BOX
- | Source Code Analyzer (SAST) | Application Inspector

- | Build SSDLC Framework | API In-Depth Security Design Review | DevSecOps
- | Software Supply Chain Security | Threat Modeling | Secure Code Review
- | Integration Security Review | Secure Configuration Review | Cloud Security Review
- | IoT Security Assessment | Assurance Assessment
- | Application Security Triaging Service | Integration & Architecture Review

Governance, Risk & Compliance

- | Enterprise GRC | Integrated Risk Management (IRM)
- | Cybersecurity Risk Management | Corporate Compliance
- | Supplier Risk and Performance

- | Discover, catalog, manage data. | Ensure compliance, drive insights.
- | Trusted by data teams.
