Enterprise Technologies

Identity & Access Management (IAM)

- | Identity Threat Protection | MFA Everywhere | Risk-Based Authentication
- | Service Account Protection | Privileged Access Protection | Ransomware Protection
- | Identity Threat Detection & Response | Non-Human Identity Protection
- | Machine & Service Account Discovery | Identity Attack Detection

- | Single Sign-On | Adaptive MFA | Passwordless Authentication
- | Customer Identity (CIAM) | Workforce Identity | Intelligent Authentication
- | API Security | Identity Orchestration | Non-Human Identity Security
- | AI Agent Access Control

- | Identity Governance | Automated Joiner-Mover-Leaver | Segregation of Duties
- | Access Request & Provisioning | Role-Based Access | Intelligent Access Review
- | Identity Analytics | Non-Human Identity Governance | AI Agent Governance
- | Machine Identity Visibility

- | Privilege Access Management (PAM) | Third party/Vendor for Remote Access
- | Privilege threat Analytics (PTA) - CyberArk Privilege Cloud
- | Dynamic Privileged Access (DPA) - Identity Security Intelligence (ISI)
- | Endpoint Privilege Management (EPM) - Secrets Management

Identity & Access Management (IAM)

- | Application Access Governance | Continuous SoD Compliance | ERP Access Control
- | Automated Provisioning | Access Certifications | Privileged Access Governance
- | Compliance Automation | Non-Human Identity Governance | AI-Driven Access Risk Insights

Security Operations(SecOps)

- | Next GEN SIEM | AI SOC Analyst | UEBA | SOAR
- | TDIR | Hybrid and Multi Cloud Monitoring | OnPrem / Cloud Redployment

- | On Premise / Regional Cloud Deployment | Multilingual and Custom Phishing Simulation
- | Multilingual and Custom Awareness Training | Policy Manager and Newsletter
- | AI Campaign Maker and Automated Reminder | CISO Custom Awareness Programme & Complete Managed Service

- | Observe All AI Usage | Govern AI Usage
- | Protect Your AI Agents, Models, and Chatbots | Harden Models with AI Red Teaming

- | Advanced Dark Web Monitoring | Brand Protection | Attack Surface Management
- | Managed Takedown Services | Supply Chain Intelligence | DNS Monitoring

- | Automated Security Validation – Internal and Cloud | Kubernetes pentesting
- | Active Directory (AD) Tripwires | Rapid Response

Cloud Security (CS)

- | Complete CNAPP (Cloud Native Application Protection Platform)
- | Agentless MultiCloud | AI SPM | Risk Prioritisation
- | Cloud Pentesting (Red Agent, Green Agent, Blue Agent)
- | AI Specific Remediation | Wiz Code incl. SAST | Wiz Defend

- | SaaS Discovery | SaaS Inventory | Threat Detection
- | Posture Management | Autonomous AI-powered SaaS Security

- | Cyber Assets | Exposures | Cyber Physical Assets
- | Software Assets | Automated Asset Actionable Intelligence

- | Global AI Powered Cloud Service Provider | Native AI Leading Solutions/ Services
- | Regional Data Center / DP/ DR | AI Ready On prem Services

Application Security & Development, Security, and Operations

- | WAF | Web Application Firewall (WAF) | API Security & API Detection/Response
- | Advanced Bot Management | DDoS & Application Protection
- | OWASP Top 10 Protection | Regional Cloud / On Prem

- | API Security | API Posture Management
- | API Security Testing | OWASP Top 10 | On prem Deployment

- | API and AI Gateway / Management | API Ops
- | MCP Registry | On Premise / Hybrid Deployment

- | Secure Design Threat Modelling | Graph Agent | System Mapping Agent
- | AI ML Threat Modelling | On Premise Deployment

- | Dynamic Application Security Testing (DAST/IAST) | Black BOX
- | Source Code Analyzer (SAST) | Application Inspector

- | Dynamic Application Security Testing (DAST/IAST) | Black BOX
- | Source Code Analyzer (SAST) | Application Inspector

- | Hardened Base Images | Complete Library Governance and Visibility
- | Custom Images | Continuous Software Visibility
- | Onprem / Regional Cloud Deployment

Governance, Risk & Compliance

- | Enterprise GRC | Integrated Risk Management (IRM)
- | Cybersecurity Risk Management | Corporate Compliance
- | Supplier Risk and Performance

- | Discover, catalog, manage data. | Ensure compliance, drive insights.
- | Trusted by data teams.

Data Security (DataSec)

- | Cryptographic Asset Discovery & Inventory
- | Cryptographic Risk & Posture Management
- | PKI & Certificate Lifecycle Automation

- | Data Discovery | Structured Data Discovery
- | Unstructured Data Discovery | Data Classifications
- | Data Privacy & Security | Data Compliance and Governance
- | Data Security & Risk Posture

- | File Access Management (FAM) | OnPrem Sharing Files Over Secure Links
- | File System Federation | Security Integrations (AV, DLP, Sandbox etc...)

- | Document Processing & PDF SDK | Document Generation & Automation
- | Document Security, Redaction & Data Extraction

- | Hardware Security Modules (HSM) | Enterprise Key Management & Encryption
- | Cloud Key Management (BYOK / HYOK) | Tokenization & Data Protection

- | Digital Rights Management | File Encryption
- | Control Access & Prevent Data Leaks | File Audits

- | Intercede secures digital identities. | Manage credentials, ensure mobility.
- | Protect data, networks, facilities. | Trusted by governments, enterprises.

- | Data Masking | Static Data Masking (SDM)
- | Dynamic Data Masking (DDM) | Anonymization & Pseudonymization

Infra & Network Security (INS)

- | Secure SD-WAN | WAN-Optimization | Security Services Edge (SSE)
- | ZTNA, SWG, CASB & DEM

- | Server Load Balancer | 4th Generation DLP | Link Load Balancer
- | Web Application Firewall | SSL Gateway - Zero Trust

- | AD Attack Surface Reduction | Tier 0 Attack Path Analysis
- | Attack Pattern Detection | AD Threat Detection & Response
- | Active Directory Breach Forensics | AD Change Auditing & Rollback
- | AD Backup & Recovery | AD Migration & Consolidation

- | AutoTest Results & Data Management | Wired & WiFi | AirMapper™ Site
- | AirMapper™ Site Surveying & InSites™ Intelligence | Dash boards & Workflows
- | Platform for Team Collaboration, Reporting, and Analytics
- | Advanced Asset Management & Network Mapping
- | Vulnerability Scanners: Strengthen Your Edge Network Defenses

- | Zeek & Suricata - Encrypted Traffic Analysis
- | Inspector & Visibility - Integration with SIEM
- | Open NDR (Network Detection and Response)

- | Next Generation Cloud DNS Firewall | DNS Forward Proxy (DFP) | AI-Driven advance DNS
- | Protection with LLM models | Detect sophisticated DNS tunneling and data exfiltration attempts
- | Ultra Fast DNS - Region-based & Smart secure log retention | Empower MSPs with full multi-tenancy capabilities

- | Data Protection and Risk Mitigation (DPRM) | Layer 4 Data Payload Protection
- | Crypto-Segmentation | Data Security Unified Reporting | AD Protection

- | Zero Trust Endpoint Protection | Regulate Software allowlisting
- | Application containment - Ringtencing | Network & Cloud (M365 tenant) Control
- | Storage Control - USB Drives, backup shares, or network shares
